

GMR COVID-19 Uniform Cleaning Decontamination Procedures

All field employees should maintain spare clean work uniforms at their place of work so that potentially contaminated uniforms can be exchanged upon return to quarters or deployment facilities.

GMR ground employees are encouraged to carry a spare uniform in the unit to facilitate rapid change-out when necessary.

When laundering uniforms, please follow the [GMR COVID-19 Uniform Cleaning Decontamination Procedures](#).

These guidelines, as well as additional COVID-19 resources, can be found on the GMR [Emerging Infectious Diseases web page](#).

Please forward this information to your teams as appropriate. Contact your Regional Director of Safety if you have questions about any of these procedures.

Thank you,

Tom Baldwin

GMR Vice President of Safety
